By taking action in support of our strategic Corporate Social Responsibility (CSR) priorities, Wells Fargo also contributes to advancing the global priorities outlined in the United Nations Sustainable Development Goals (SDGs). In 2017, we undertook an analysis to understand how our CSR efforts aligned with the SDGs by benchmarking our material issues, goals, and programs against the 169 SDG subcriteria. The graphic here illustrates the strength of alignment* between our 2020 CSR goals and commitments, and each of the 17 SDGs. In the future, we hope to report our contributions to help advance those goals against which we are most strongly aligned, including SDGs 1, 5, 7, 8, 9, 11, 12, 13, and 16.

*Strength of alignment = (Percentage of supported SDG subcriteria) x (Aligning Wells Fargo goals and KPIs)
